@vickyraut
Pune, India
@vicky12cr

SKILLS

Languages: Java, Python, Kotlin, C++, SQL

Frameworks: FastAPI, Flask, LangChain, LangGraph, Android Jetpack

Tools: Git, Docker, Firebase, PostgreSQL, MongoDB, MCP

Concepts: OOP, DSA, REST APIs, RAG, Agentic AI, LLM Gateway, Observability, Evaluation, DeepAgents

EDUCATION

Sep' 23 - Jul' 26 — **B.E. Computer Science (CGPA 8.2 / SGPA 8.97)** — **Government College of Engineering, Avasari, Pune**
The Govt College of Engineering and Research is NBA accredited & the only Government college in Pune. .

Jul' 20 - Jul' 23 — **Diploma In Computer Engineering** — **Government Polytechnic Murtizapur, Akola**
Percentage: **89.66%** / **1st Rank**

Jun' 20 — **Class 10th Board** — **Jijamata Vidya Mandir, Mumbai**
Percentage: **89.80%** / **2nd Rank**

EXPERIENCE

Mar'24 – Jan'25 — **Part-Time Software Developer** — **Indian Institute of Information Technology Surat**

- Contributed to the development of a **cloud-based smart traffic management system** for intelligent traffic signal control using AI and IoT technologies.
- Developed and optimized computer vision pipelines using **YOLO** for real-time vehicle detection, tracking, and traffic analysis.
- Integrated backend services using **Django** and collaborated on deployment workflows using **AWS**, **Raspberry Pi 5**, and **Jetson Nano**.
- Worked closely with a multidisciplinary team to improve system performance, deployment reliability, and real-time inference.

Oct'22 – Feb'23 — **Android Developer Intern** — **Mountreach Solution Pvt. Ltd.**

- Developed Android applications using **Java**, implementing **MVC** and **MVVM** architecture with a **MySQL** backend.
- Built application features, fixed bugs, and improved compatibility across multiple Android versions by applying **SOLID** principles and debugging best practices.

May'24 – Aug'24 — **Teaching Assistant** — **Apna College**

- Mentored **150+ students** in Data Structures and Algorithms, resolving coding doubts and strengthening problem-solving skills through one-on-one guidance.

PROJECTS

AI Application — **Multi-Agent AI Assistant** — **GitHub**

- Developed a unified Streamlit application integrating AI agents for General research, web search, and AI news summarization using LangGraph state-based workflows.
- **Tech Stack:** Python, Streamlit, LangGraph, LangChain, Tavily Search, OpenAI/Gemini APIs, Tool Calling.

Deep Learning — **Real-Time Criminal Activity Detection System** — **Research Paper** | **GitHub**

- Developed a deep learning-based surveillance system to detect criminal activities from CCTV footage using spatio-temporal video analysis.
- Published a research paper based on the proposed system.
- **Tech Stack:** Python, YOLOv8, TensorFlow, OpenCV, FastAPI, React, PostgreSQL.

Android App — **Touristo** — **GitHub**

- Built an Android application for discovering tourist destinations with authentication, maps, and booking features.
- **Tech Stack:** Java, XML, Firebase, MySQL, MVVM, Google Maps, PHP, Payment Gateway.

RECOGNITION & LEADERSHIP

- Published a Research Paper in the **JSMRD Journal**.
- Served as Android Development **Club Lead** for 2 years.
- Represented India at **IMUN** as the Delegate of Iran.
- **Volunteered** with NSS and the Election Commission of India.
